

Infection Control Risk Assessment (ICRA) for Construction Activities

Wednesday
June 15, 2005

ECRI, 5200 Butler Pike, Plymouth Meeting, PA

Two half-day seminars—attend just one or learn all day!

- Is your company involved in hospital construction, renovation, or demolition?
- Do you fully understand infection control requirements for healthcare facilities?
- Do you know how to implement infection control procedures to satisfy your contract?
- Can you erect and maintain effective infection control barriers in critical patient areas?

ECRI's Center for Healthcare Environmental Management (CHEM)[™] and the Mid-Atlantic Construction Safety Council (MACSC) are teaming up to provide two half-day seminars designed to educate construction management and healthcare professionals on the practical use of infection control risk assessment (ICRA) and management techniques. These seminars feature presentations and interactive exercises that offer a unique opportunity to gain hands-on infection control risk assessment and management skills.

Part 1

ICRA: Things You Need to Consider

8:00 to 11:30 a.m.

This session will provide a basic understanding of the concepts and explain topics that must be considered during every ICRA.

Topics will include:

- Basic Infection Control Principles
- The Four Major Classifications of ICRA
- Basic Indoor Air Quality and HVAC
- Noise and Vibration
- Interim Life Safety
- Personal Protective Equipment

Part 2

Developing Infection Control Plans

1:00 to 4:30 p.m.

This session will allow attendees to apply ICRA techniques to construction scenarios.

Topics will include:

- Project Setup and Meeting ICRA Specifications
- Erecting Short and Long Term Containment
- Establishing and Maintaining Negative Air
- Pressurized Areas
- HEPA Filtration: Locating Units and Filter Changes
- Project Monitoring
- Overall Cost Implications

Who should attend?

Construction estimators, project managers, superintendents and foremen

Infection control practitioners

Environmental health, safety, and security managers

Facilities managers

About ECRI

CHEM is sponsored by ECRI, a nonprofit health services research agency and a Collaborating Center of the World Health Organization. ECRI provides information and technical assistance to the worldwide healthcare community to support safe and cost-effective patient care. Visit www.ecri.org.

About MACSC

The Mid-Atlantic Construction Safety Council is a group of safety professionals dedicated to the protection of life and property in the construction industry in the Greater Philadelphia area.
