Who IS Charlie Morecraft? Charlie is an ordinary guy with an extra-ordinary story. He was an hourly worker, a good employee, who considered himself "just one of the boys". Charlie had more than 15 years experience on the job, and he knew it well. He knew all the safety rules and regulations . . . **and he knew all the shortcuts!** And, like all the other experienced workers, he was certain that nothing could go wrong when **he** was in control. He was right . . . **except for this one time . . .**

Charlie was seriously injured in an industrial explosion. He talks about safety from an unusual perspective..... **he takes full responsibility** for his injury. He is a living example of unsafe behavior. **Charlie has lived so that he can speak to us, with passion, about taking responsibility for our own safety and the safety of others around us.** He doesn't want what happened to him to happen to you. We want what Charlie wants. So, please join us in May and listen to Charlie give old messages new meaning.
